Principal's Message

By Ms. Garcia

Beaupre Community!

It's been a terrific school year. It is summer time and there is only one day left of school. Summer Break is around the corner, but we are not done yet!

5th Graders attended Dickson Valley this year. Although it was balmy, students and teachers had an amazing experience. Thank you for entrusting your child to us.

STEAM Night was an amazing success and our partners came to support this wonderful family event: Mariano's Food chain generously donated snacks, Endiro Coffee set up a coffee station, an angel donor provided laboratory kits, and many more partners came to support us.

We had 33 Scholars this year! Thanks to the students for their passion and ambition, teachers for their fidelity towards literacy, and finally you our amazing parents and community for embracing the vision for a brighter tomorrow! On May 23rd we sent every child home with four books. This summer, we need your help; every child must read 20 minutes per day, at a minimum. Reading helps build fluency and fluency increases vocabulary, which positively affects comprehension.

Wishing you all an amazing break. See you Wednesday, August 14th.

Caridad Garcia,
School Principal

Beaupre's 33 Scholars for the
2018-2019 School Year.

The Favorite Flashback

By Nathan

My favorite memory is camping in Dickson Valley. Dickson Valley opened a new world. Our cabin had a table that looked like shuffleboard, without the shuffle. A puck replaced the balls; the game is called Carpet Ball. Carpet Ball is a game that combines Pool, and Shuffleboard.

At dinner, we created our own chicken fajitas! The food was amazing! After dinner, we played "Instincts for Survival."

"Instincts for Survival" is a game where two main objectives are to collect water and food. Both are scattered around the property. Herbivores wear green bracelets. They have to run from carnivores. Carnivores eat omnivores and herbivores. Once caught, all bracelets are surrendered to the capturer.

On the final day, I went through my morning routine, and played Carpet Ball for the last time. Mr. Styles summoned us to venture the slopes on tube sleds, while the girls packed the truck. Before we knew it, the trip was over; I will never forget this experience.

Goodbye Beaupre! By Kaylany

Hello fellow human beings! I shout out my name to you for the last time. My name is Kaylany and I like potatoes. I've always dreaded this moment because it makes me so sad. My last 6 years at Beaupre have been just amazing. Everyone is so kind and positive and it makes me happy. I'm not very excited to leave behind my Beaupre family. For the last 6 years of my life I've been blessed with the nicest, smartest, people of my life. These are the people I call friends. I also have the most amazing birthday twin named Mrs. Vasquez (Ms. Martinez). I've been blessed with the kindest teachers which include: Ms. G, Ms. Lindquist, Ms. Hearon, Ms. Moshinsky, Ms. Hansen, Mr. Adler, and so many more. Beaupre has a really good sports team, but it's not so much of a team as it's more of a family because we know everyone and we know everyone's skillset, so we know how to harness strength. I have people all over the school that inspire me to follow my dreams. Even dreams that I didn't know I had. With that support I've been able to participate in awesome experiences like WE DAY 2019, Fuel up to play 60 commercial, Fuel Up To Play 60 Summer summit, and so much more. The class of 2026 has also been given awesome experiences too. Although I am afraid to leave behind my friends whom I've known for 6 years, I am happy to say that future Pumas and current Pumas will have the same amazing teachers and influences that I did. PS Mr. Styles is awesome!!! Sadly, this wraps up my last newsletter of my Beaupre career. Goodbye human beings and remember when given the opportunity... "be a potato!" Signing off one last time, Kaylany A.

Beaupre Field Day By Alianna Eileen P

Beaupre field day is towards the end of the school year at Beaupre. We have field day and everyone has fun. For field day, you might want to bring spare clothes because you will get wet. There are stations to rotate. One station is a water station. There is three parts of the water stations. One is where you carry a sponge and squeeze water out of it. After that station, you go to a station that includes a blowup pool. First, you have a water bottle in front of your team. The objective is to fill a pool with water. The first team to fill the pool wins. Field Day is awesome!

Wednesday Day Afternoon By Ariana

You know, it's the time of year when you're in 5th grade and it's the last year of elementary school. To be exact it is my last year at Beaupre. You're probably wondering why I'm writing this article. I want to share my favorite memory of 5th grade with you. Dickson valley is my favorite memory from Beaupre. It was a chilly Wednesday evening and we were split into groups. To clarify, we had two teachers, and we had a vote whose team we wanted to join. First, one group had to go on the slopes while the other group sat on logs enjoying their s'mores. It was emotional when everybody said it was our last year together. We have spent the last 6 years together, and it's like splitting up with your family that you've known for so long. My heart is confused with sentiment, and the turmoil tears me down. This is the part where I say goodbye. I LOVE YOU ALL SO MUCH! Special thanks goes to the teachers who inspired me along the way. Thank you Ms. G, Miss Fane, Ms. Hearon, Ms. Moshinsky, Mrs. Hansen, and any teacher I may have forgotten. With sadness and love. - Ariana

My Favorite Memory By Yassel S.

Hi! My name is Yassel. This is my favorite memory. In the after school program when we had a Christmas party. We had cheeseburgers, cookies, and soda. We got our faces painted with a Christmas theme. There were even Christmas hats. We met Santa clause and told him what we wanted for Christmas. I told him I wanted an art kit. Each of us got a present, or a Christmas bag. We got extra food for our family. Before the party finished they made a few announcements while playing Christmas music. It was fun dancing with Ms. Felix and going crazy. I hope you have the same experience as I in the after school program.

Adler Planetarium By Juan

Hello My name is Juan. Let me tell you about the Adler Planetarium. When you take the bus, it takes about 30 minutes to get at the Adler Planetarium. When you get there, it is like a museum but with planets. They even they have films. Even teachers can visit. There is a lunchroom where you can eat. My favorite part about the Adler Planetarium is the presentations. They showed a film about space. Before I finish, did I tell you that you could take money to buy stuff in their gift shop? Sadly, I did not buy anything. I am the one and only Young Pad-A-Juan.

Halloween Imagined By Roxanna

One day in October this year, my cousins Angelica and Valeria went trick-or-treating. It was Halloween. They got a lot of candy and then they went to celebrate Halloween with their families in a restaurant. The next day it was Angelica and Valeria's birthday. Their parents bought a Halloween decorated cake. They had a party with Mexican food to celebrate Halloween and their birthdays. There was Posole and spaghetti. It was an amazing day.

On Saying Goodbye: Mr. Adler

In Billy Joel's song, "Say Goodbye to Hollywood" he sings "Life is a series of hellos and goodbyes. I'm afraid it's time for goodbye again." This time of year is especially distressing for me as I end my 3rd year of teaching at Beaupre. When I first arrived in the fall of 2016, I was overwhelmed by a large group of incoming 2nd graders about to enter 3rd grade. Little did I know that I would get the chance to bond with an eclectic variety of students who clung on to my every word and embrace my humor and culture, as I did theirs. In these three years, I have watched exponential growth in physicality, academia, and grandiose personalities. I have had the honor to be immersed and enveloped by daily laughter, humor, and smiling faces who greet me with passion and enthusiasm. What is my message to the class of 2026? My advice is this; see the world. Explore new places. Take risks. The world is your buffet. Take small samples from each station. Allow yourself the freedom to develop interest, voice, and then exercise them. Remember that your opinion matters. Your beliefs affect your existence. Lastly, stand tall to your convictions. Never believe it can't be done; it can be. You are living proof of that. You may be saying goodbye to Beaupre, but you are saying hello to a new world to come.
